USAGE RATIO

ORANGE — PRIMARY ACCENT
Use for highlights, CTAs, active states, icons, and important interactions to create strong visual attention and brand recognition.

BLACK — PRIMARY BASE
Use for headings, typography, dark sections, and premium visual balance. Maintains the bold and professional identity of the brand.

White — Negative Space
Use for backgrounds, spacing, and clean layouts to ensure clarity, readability, and minimal aesthetics.

- Usage Rules**
- 1. Maintain a clean and minimal visual hierarchy.
 - 2. Avoid overusing orange; use it strategically for emphasis.
 - 3. Prefer high contrast combinations for readability.
 - 4. Keep sufficient white space across layouts.
 - 5. Do not introduce additional colors outside the brand palette unless required for illustrations or data visualization.
